Self Bunded Container WrapTank™

The sign of things
to come

Diverse Tank Engineering **Self Bunded Container WrapTank™** offers self-supporting strength with the heart and soul of a round tank and the versatility of shipping container logistics. The CT container comes with bottom lift to avoid working at heights during loading and off loading.

Features

Extended dip point complete with calibrated anodized dipstick and lockable cap

Interstitial space vented and monitored by dipstick

600mm access manhole

Painted – class 2 1/2 blast clean followed by two pack epoxy top coat

Rated over fill protection unit supplied with mechanical shut off and all tanks supplied with audible alarm

Lockable roller doors or security gates for front of cowling available

50nb & 80nb fill lines available complete with fire rated isolation valve, non-return valve, camlock adaptor and lockable dust cap

50nb suction line complete with anti siphon line

Full range of pumping, dispensing and fuel management systems available

Ladder designed and manufactured to AS 1657 and incorporating sliding mechanism so ladder contained in container foot print, and access to top of the tank for ease of inspection and maintenance

Tank self supporting with no requirement for internal baffles making it completely safe if any internal access is required

No requirement for lifting tank for periodic inspection, underside of tank completely visible

Suitable for petroleum, petrochemical and chemical applications

Up to 45,000 Litres for Class 3, PGII,
Up to 110,000 Litres for Class 3, PG111, C1 & C2 Liquids
Up to 45,000 Litres for Class 6.1 PG11
Up to 110,000 Litres for Class 6.1 PG111
Up to 110,000 Litres for Class 8 Liquids

Manufactured to meet or exceed industry and statutory requirements

AS 1692 – 2006 Tanks for flammable and combustible liquids
AS 1940 – 2004 Storage and handling of flammable and combustible liquids
AS 3780 – 1994 Storage and handling of corrosive substances
AS 4452 – 1997 Storage and handling of toxic substances

Tank capacities

10,000 litres – 70,000 litres
